Mr. Bernard J. Schorle
USEPA-Region V, HSRL-6J
77 W. Jackson Blvd.
Chicago, IL 60604

Dear Bernie:

The Illinois Environmental Protection Agency (IEPA) has reviewed the draft RD/RA Work Plan and the Groundwater RD Work Plan. As yet there have been no comments back from reviewers of the Health and Safety Plan but when those comments arrive, they will be forwarded to you. Per the SMOA, the QAPP was not reviewed.

As you know this is a unique site in that it is an active landfill while being a Superfund site. Because of the uniqueness of the site, these documents were reviewed by IEPA's Toxicology section, Solid Waste Unit, Groundwater Assistance Unit, and a RCRA/CERCLA Coordinator with special attention toward the continued operation of the landfill in the years to come.

I've attached copies of received comments for your perusal. Feel free to give me a call if you have any questions.

Sincerely,

Fred W. Nika Jr., P.E.
